

Week 34 | July 28 Sermon

Community:

[Just have fun!]

We believe that God is fun and that he created us to have fun with Him and with each other. There is certainly a seriousness to our discussion and the growth and depth that comes from it. My guess is that you have experienced a great deal of both the fun and the seriousness as you have engaged with Acts together in community. This week, as you close your time together, or at least the time studying Acts, make FUN a priority. Whether it's simply a matter of posture and mindset or if it's a pre-planned party or game, enjoy each other.

With joy and gladness they are led along as they enter the palace of the King.

Discussion Questions:

Would you share how our 10 month study and application of the book of Acts has strengthened, surprised, encouraged or troubled you?

Has our study and application of Acts impacted your relationship with Jesus? How? Please be specific.

How has our study and application of Acts impacted your relationship/witness with others?

Has the Holy Spirit embedded a particular story or chapter of Acts into your heart? If so, would you explain why?

Will you end our study of Acts by praying for more of the Holy Spirit (within and upon) in each of your lives? Will you pray for more "fruit" and more "giftings" so that you can joyfully be a witness to the risen and reigning Jesus?
